

GWO SLINGER SIGNALLER TRAINING

TARGET GROUP

Personnel working within the wind industry conducting slinging techniques and signalling during simple lifting operations, meaning lifts conducted based on a lifting plan covering known hazards

COURSE CONTENTS

- General Safety
- General Theory
- Practical
- Summary and final test

CERTIFICATION

The slinger signaller training is an enduring qualification and therefore a validity period does not apply to this training. This assumes that the delegate is actively working with slinger signalling tasks.

ENTRY STANDARDS

Trainees wishing to enter this course should be medically fit and capable of fully participating.

DURATION OF THE TRAINING COURSE

GWO Slinger Signaller training Course is 2 working day

OBJECTIVES OF THE COURSE

The aim of GWO's Slinger Signaller training module is to enable the delegate to support and care for themselves and others while working with slinger signalling in the wind industry by possessing the required knowledge and skills to conduct assigned tasks safely and efficiently. Upon successful completion of GWO's Slinger Signaller training course, the delegate will be able to work within the wind industry conducting slinging techniques and signalling during simple lifting operations, meaning lifts conducted based on a lifting plan or covering known hazards.

The Slinger signaller will have the knowledge, skills and attitude to be able to:

- Attaching and detaching the load to and from the crane lifting attachment
- Initiating and directing the safe movement of the crane, including multiple slinger signallers during limited or blind lifts
- Adhering to their role and responsibilities during the lift
- Conducting visual pre and post inspection on lifting accessories and load
- Handling of lifting accessories
- Ensuring safe lift-off and lay down of the load
- Slinging various types of load, based on weight, centre of gravity, shape and size
- Carrying out generic routine lifts in accordance with the lift plan
- Complying with instruction/procedures set up by the employer to manage lifting
- Ensuring that equipment is properly used, maintained and defects reported
